

SOME SUGGESTED FOLLOW-UP ACTIVITIES...

Journal Entry:

Why is it important that motorists know the symbols of the road?

When you were at the Village, how did it feel to be a pedestrian?

How did it feel to be a motorist?

Brainstorming Activity:

Divide the students into groups (give each group a piece of chart paper) and give them a reasonable period of time in which to brainstorm all the road safety rules they know. Then have them share it with the class.

Ontario Physical and Health Education Association (OPHEA) Road Safety Resource (www.ontarioroadsafety.ca)

An excellent road safety education resource that has been created in partnership with OPHEA and the Ministry of Transportation (MTO) can be used as a follow up to your visit to the Children's Safety Village.

This teaching resource contains a set of lesson plans and extension activities to support the delivery of road safety messages. All activities are easy to implement and can be found using the links below.
