

Vocabulary Building

1. Vocabulary Building:

Have students create as many words as possible from the letters in **SEATBELT** or in the word **PEDESTRIAN**.

* Making Words:

This activity could also be done by having students **make** words by moving the actual letters around (letters are provided on the attached handout).

Provide the letters and ask students to start by making a 2-3 letter word. For example, make the 3 letter word "eat." Add an 's' and make the word "seat." Change the 's' to a 'b' and make the word "beat." Use all the letters and make the mystery word.
